### Make and Take Party

This fun interactive program lets kids make their own LEGO models and take them home. First they create a **3-D model** of their first initial. Next they will customize their own **LEGO go-kart** choosing colours and other options. The vehicle is just the right size for a LEGO minifigure, and each participant will build one from our “**Minifigure Factory**”. For the final build we set up a frenzied assembly line and everyone works together to make each of them a **LEGO treasure chest**... then fills it with treasure!

All materials used are brand new, genuine LEGO bricks. We can also customize the list of make & take projects based on the ages and interests of the children.

Includes four custom LEGO projects for each guest to make and keep.
